Busy Bottles: Calm the Mind–Stir the Memories

These sealed bottles contain a mix of colorful rice and objects based on different themes. They combine the fun of I–Spy to search out, recognize, and identify objects within a designated theme with laminated cards offering reminiscence questions, conversation starters, and a grid of objects in the bottle which can be marked off with the included dry erase marker.

Each kit comes with sealed busy bottles, laminated I–Spy and activity cards, dry erase markers, and dry erasers.

Energy Meters

The P4460 Kill A Watt EZ is an energy meter that helps you cut your energy costs and find out what appliances are actually worth keeping plugged in. Simply connect these appliances to the Kill A WattEZ, and it will assess how efficient they really are. Large LCD display will count consumption by the Killowatt–hour, same as your local utility. Calculate your cumulative electrical expenses and forecast by the day, week, month, even an entire year. Also check the quality of your power by monitoring Voltage, Line Frequency, and Power Factor. Now you'll know if it is time for a new refrigerator or if that old air conditioner is still saving you money. With the amazing Kill A Watt EZ you'll know "Watts" killing you.

•Includes carrying case, instruction booklet, and quick start instructions.

Light Therapy Lamps

A natural spectrum light therapy lamp may help to reduce the effects associated with winter blues, jet lag, shift work, and seasonal time changes and boost your sense of well–being. Safe for most adults, teens, and children to use, however if you have any of the following medical conditions, it is best to be under the care of a health professional while using light therapy: have a condition that makes your skin especially sensitive to light, such as systemic lupus erythematosus; take medications that increase your sensitivity to sunlight, such as certain antibiotics, anti–inflammatories, or the herbal supplement St. John's Wort; have an eye condition that makes your eyes vulnerable to light damage; have bipolar disorder.
